Walt Whitman Rostow
Mr. Walter W. Rostow
50 Memorial Drive
Cambridge 39, Massachusetts

Dear Walt:

Thank you for your fine letter of November 25. I realize there is a considerable gulf between our general thoughts on the Chinese problem. All the more reason why I should enjoy discussing the question with you at an early date. Do let me know when you next get to Washington and we'll try and set up dinner or at least a drink. I wish I could invite you to stay with us but we have just purchased a house and are in the process of moving.

I have asked [REDACTED] of ONR to send you the contributions that office is making to the national estimate that will shortly be forthcoming. I think you will find them useful in an encyclopedic way as they represent a massive effort to collate all the evidence than we have heretofore made.

25X1A9a

Sincerely,

Robert Amory, Jr.
